## In what way(s) did you interact with this teaching assistant (Oscar O'Flaherty)?

## What aspects of this teaching assistant's (**Oscar O'Flaherty**) teaching were most helpful to you?

### Comments

Oscar was willing to sit down with me at office hours and explain in depth what I needed to know to be able to complete a question without telling me how to do it. He made sure he helped until I truly understood what I was doing.

Didn't interact with him.

Never interacted

He was the only reason I ever figured anything out in this class. Without him I would have been extremely lost.

Responsiveness to emails, knowledge about the subject, availability

He was very knowledgeable and helpful in office hours

Oscar is the man.

## How can this teaching assistant's (**Oscar O'Flaherty**) teaching be improved?

### Comments

Sometimes his responses to emails were delayed, but that was partially my fault by asking him things last minute anyways.

Didn't interact with him.

Never interacted

Oscar, you are so kind and patient and helpful! Thanks for helping me survive the class!

Best,  
Linh

Communicate better with the professor. Though this might not be his fault.

I think it's pretty solid, no specific ideas

## In what way(s) did you interact with this teaching assistant (Oscar O'Flaherty)?

## **What aspects of this teaching assistant's (**Oscar O'Flaherty**) teaching were most helpful to you?**

### **Comments**

Oscar is a consistently helpful TA that understands the expectations, positives, and negatives of the course and made it very clear what material was most important to devote time to. One time he went out of his way to meet me in his office before spring break to hand me back a problem set. Was a great TA whom which the class should have utilized more.

Oscar helped us understand what the question was asking and how we should think and work out each problem.

Oscar really went above and beyond to make himself available to his students. I couldn't have asked for a better TA for ECON 2160. Thanks Oscar!

I didn't really interact with Oscar ever, as I never went to office hours or reached out. Seemed very nice, but am not really qualified to answer about how he was as a TA.

## In what way(s) did you interact with this teaching assistant (Oscar O'Flaherty)?

## What aspects of this teaching assistant's (**Oscar O'Flaherty**) teaching were most helpful to you?

Comments
office hours
His emails.
He was very communicative and helpful in every interaction I had with him.
Responsiveness and willingness to help.
Helping us to understand stata.
Helping understand the assignments
Feedback on assignments
Oscar was willing to explain larger concepts that greatly helped when completing the Stata homework assignments. Without Oscar's office hours, I'm pretty certain that most kids would have failed every homework.
Oscar was very relatable to undergrad students. He understood the struggle that we were going through with a lot of the assignments and made himself very available to us via email or office hours. I don't think I would have been able to do a lot of the assignments had I not gone to his office hours.

## How can this teaching assistant's (**Oscar O'Flaherty**) teaching be improved?

Comments
not his fault but he doesn't know as much about the history side
N/A
It would be helpful if Oscar would have had the requirements/guidelines sooner in the process so he could have been able to assist me before the last minute on the assignments, but he was very adept at guiding in the right direction despite not having all of the info.
No improvements necessary.
More availability
I feel as though sometimes Oscar was not always 100% sure of the data assignments and what to do (I'm not sure if this has to do with him or with the professor's teaching style).
